Current Committee Membership

**Intellectual Property, Committee on**

The Committee on intellectual Property recommends to the administration policy guidelines for intellectual property, including patents, copyrights, and agreements. It considers issues of the ownership and distribution of MIT intellectual property, conflict of interest, and MIT-industry interactions. Its policy recommendations balance a desire to transfer MIT technology to industry or other institutions for the public good, with a need to maintain an environment at MIT that promotes openness and excellence in education and research.
